The conference focuses on five sub-themes that have been identified as essential for enhancing the core missions of the university – research, teaching and learning and service and volunteerism – through meaningful and productive community engagement and which in turn, helps uplift the quality of life of communities.

- Research Driven Community Engagement
- Community Engaged Teaching and Learning
- Knowledge-Driven Volunteerism and Community Engagement
- Institutionalisation and Mainstreaming of Community Engagement
- Measurement of Impact of Engaged Initiatives

For each of these sub-themes, we particularly welcome case studies and good practices. As community engagement cuts across various sectors, submissions in the following multidisciplinary that support one or more of the above sub-themes are most welcome:

- Rural & Urban Development and Poverty Alleviation
- Youth, Marginalised and Vulnerable Groups
- Social Entrepreneurship / Social Innovation
- Health and Welfare
- The Aging Population
- Education Development
- The Environment and Climate Change
- Disaster, Risk Reduction & Preparation
- Protecting Cultural Heritage
